### Might Not Be Alive.

McMinnville, Tenn.—Mrs. Ocie  
 Jett, of this place, writes: "I don't  
 believe I would be living today, if it  
 hadn't been for Cardui. I lay in bed  
 27 days, and the doctor came every  
 day, but he did me no good. Finally  
 he advised an operation, but I would  
 not consent, and instead took Card-  
 ui. Now I am going about the  
 house, doing my work, and even do  
 my washing. Cardui worked won-  
 ders in my case. I am in better  
 health than for five years." Cardui  
 is a strengthening tonic for women,  
 it relieves pain, tones up the nerves,  
 builds strength. Try it. At your  
 druggist's.—Advertisement.

### Couldn't See Place for "Pa."

A prominent Virginian had died,  
 and his daughter in arranging the  
 house for the funeral had gone al-  
 most to an extreme in placing palms  
 and ferns and plants in the drawing  
 room—in fact, it had more the appear-  
 ance of a wedding than a funeral.  
 One of the old darkies came to pay  
 his last respects. "Miss Mae," he  
 said, "dis surely is fine, all dese here  
 trees, but, Miss Mae, where is you  
 going to put your pa?"

### Changed the Formula.

Mr. Paul Taylor, London magistrate,  
 has improved upon the time-honored  
 formula addressed to prisoners who  
 are obviously innocent—"You leave  
 the court without a stain on your char-  
 acter." In a case before him recently  
 he assured a defendant that he "would  
 leave the court with as good a char-  
 acter as when he entered it."

### Piles Cured in 6 to 14 Days

Your druggist will refund money if PAZO  
 OINTMENT fails to cure any case of Itching,  
 Swelling, Bleeding or Pains. Piles last 14 days.  
 The Best Remedy.

## PUBLIC HIGHWAYS

### ROADS AS CROP PRODUCERS

Government Studies Show How the  
 Agricultural Output of Country  
 Depends Upon Its Highways.

That an improved road will increase  
 vastly the productivity of the area  
 through which it runs has now been  
 satisfactorily demonstrated by stud-  
 ies conducted by the United States  
 department of agriculture in Vir-  
 ginia. Conditions in Spotsylvania  
 county were investigated with par-  
 ticular care and the results have  
 proved surprising. In 1909, the county  
 voted \$100,000 to improve 40 miles  
 of road. Two years after the com-  
 pletion of this work the railroad took  
 away in 12 months from Fredericks-  
 burg, the county seat, 71,000 tons of  
 agricultural and forest products hauled  
 over the highways of that town.

Before the improvement of the  
 roads this total was only 49,000 tons  
 annually; in other words, the quantity  
 of the county's produce had risen  
 more than 45 per cent. Still more in-  
 teresting, however, is the increase  
 shown in the quantity of the dairy  
 products. In 1909 these amounted to  
 114,815 pounds, in 1911 to 273,028  
 pounds, an increase of practically 140  
 per cent in two years. In the same  
 time shipments of wheat had increased  
 59 per cent, tobacco 31 per cent, and  
 lumber and other forest products 48  
 per cent.

In addition to this increase in quan-  
 tity the cost of hauling each ton of  
 produce was materially reduced. In  
 other words, the farmers not only pro-  
 duced more, but produced more cheap-  
 ly, for the cost of transportation to  
 market is of course an important fac-  
 tor in the cost of production. From  
 this point of view, it is estimated that  
 the \$100,000 spent in improving the  
 road in Spotsylvania county saved the  
 farmers of that county \$41,000 a year.

In the past two years the traffic  
 studies of the federal experts show  
 that approximately an average of 65,  
 000 tons of outgoing products were  
 hauled over the improved roads in  
 the county an average distance of  
 eight miles, or a total of 520,000 "ton-  
 miles." Before the roads were im-  
 proved it was estimated that the aver-  
 age cost of hauling was 20 cents a  
 "ton-mile," after the improvement this  
 fell to 12 cents a "ton-mile," or a sav-  
 ing of eight cents. A saving of eight  
 cents per mile on 520,000 "ton-miles"  
 is \$41,000 a year.

Because this saving, in cases of this  
 character, does not take the form of  
 cash put directly into the farmer's  
 pocket, there is a widespread tendency  
 to believe that it is fictitious profit,  
 while as a matter of fact it is just  
 as real a source of profit as an in-  
 crease in the price of wheat.

In Dinwiddie county, Virginia, for  
 example, where peanuts are one of  
 the staple crops, the average load for  
 two mules on a main road was about  
 a thousand pounds before the road was  
 improved. After its improvement the  
 average load was found to be 2,000  
 pounds, and the time consumed in  
 hauling the larger load to market was  
 much reduced.

### IDEAS ON ROAD IMPROVEMENT

Speedways, Joy-Ride Trails or High-  
 ways for Pleasure Traffic Not  
 Wanted by Farmer.

Sanity has overtaken the advo-  
 cates of better rural highways. In the  
 old days the good road advocate  
 dreamed of nothing less than macad-  
 am, and his visionings ran often to  
 brick-paved paths and concrete coun-  
 try lanes. All the rural world rolled  
 smoothly by over traffic ways that  
 would cost anywhere from \$5,000 to  
 \$15,000 per mile. That was before  
 the farmer had really entered into the  
 movement and before the small town  
 merchant, the rural banker, and the  
 county seat cities had begun to think  
 about good roads in terms of dollars  
 and cents. Twenty years of agitation  
 has brought us face to face with the  
 fact that the taxpayer does not want  
 speedways, joy-rider trails or roads  
 for pleasure traffic, says St. Louis Re-  
 public. The man on the farm wants a  
 good firm, well drained highway that  
 he can use at any and all seasons of  
 the year, and he does not want to be  
 bankrupted or driven to the poor  
 house in getting it.

### Laying Pullets.

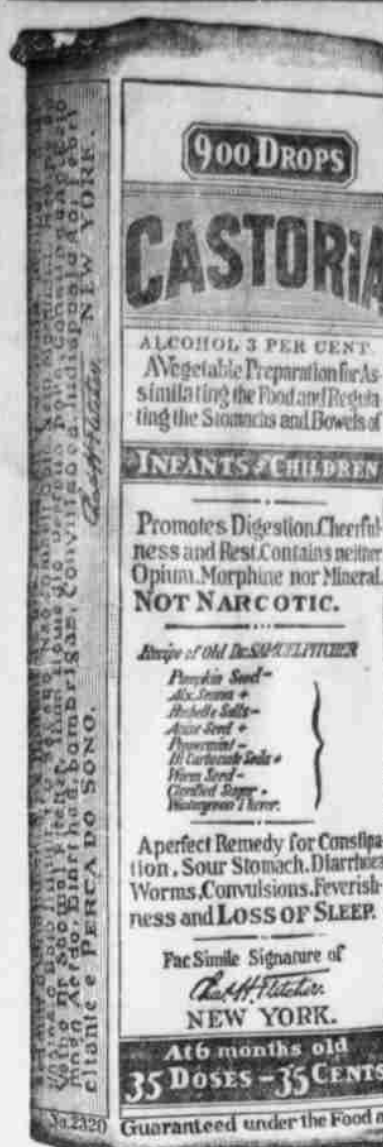

Pullets very often are slow at start-  
 ing to lay owing to becoming too fat.  
 In growing pullets there should be  
 more nitrogenous and less carbo-  
 naceous food given them.

### Importance of Movement.

Of the 2,000,000 miles of public  
 roads in the United States only about  
 two hundred thousand miles have  
 been given a hard surface. This  
 shows the importance of the good  
 roads movement.

### Poor Highways.

Poor highways lessen the profit of  
 labor, increase the cost of living, bur-  
 den the enterprise of the people, dull  
 the morality of our citizenship and  
 hold down the educational advance-  
 ment of the country.
